

Think connected.

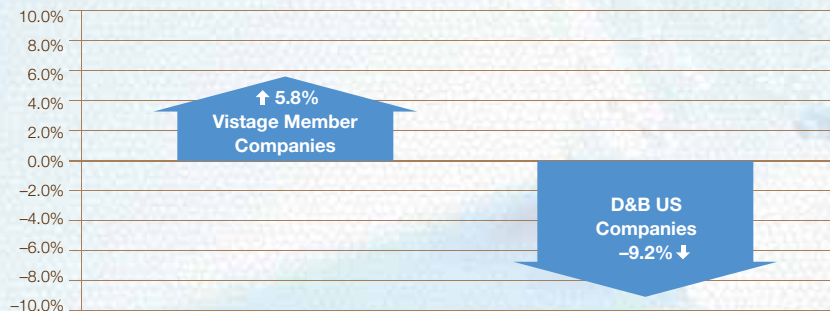

TEC CANADA™

Take your leadership to the next level.

For almost 30 years, TEC Canada has been helping good senior leaders become great CEOs. With our unique learning model, 14,500 global members and international network of partner affiliates generating nearly \$300 billion in annual revenue and employing over two million people, we know what it takes to get results and achieve business success. We tap into this expertise and experience to develop exceptional business leaders.

Our history shows a track record of success. TEC Canada's parent corporation, U.S.-based Vistage International, has been helping business leaders outpace the competition for more than 50 years. From 2005 through 2009, Vistage CEO member companies significantly outperformed the compounded annual growth rate of the average American Dun & Bradstreet company. Our unique leadership development approach delivers results. Our members' success proves it.

Average Compounded Annual Growth Rate for Company Revenues

Revenue percentage change

Analysis covers time period 2005 through 2009. Analysis includes 1265 Vistage companies; 1 million D&B US companies. All US companies were \geq \$1M annual revenue and \geq 5+ employees. Analysis includes Vistage member companies who joined in 2006 through 2008 and were active in February 2010. CAGR calculations for Vistage companies include the year prior to membership (i.e., 2005, 2006, 2007) and the comparison year of 2009. CAGR calculations for D&B US companies weighted to match the distribution of Vistage's Year-Prior member representation. All above information was compiled or prepared by Vistage International and has not been independently verified or adopted by TEC Canada.

Connect with professionals who have a passion for business, leadership and enterprise creation. Achieve your business, professional and personal goals. Explore what TEC Canada's unique real-world, hands-on approach to leadership can do for you, your career and your business.
